NOAP 2022 Annual Education Conference

Treatment Provider Panel

- What do you identify as the biggest challenges you saw that occurred due to COVID-19?
- Were there changes made due to COVID-19 that you felt worked better or surprised you once they were implemented?
- Do you feel that virtual abstinence-oriented meetings are effective, and would you recommend participants be allowed to use a virtual format for all are some of the meetings going forward even if in person meetings were back available?
- Is there something unique your program does or did in response to COVID-19 that you think others should know about?

NOAP 2022 Annual Education Conference

Treatment Provider Panel

- From a treatment provider's perspective is there something you would like to see monitoring programs do or not do to help participants remain in recovery?
- Did you notice a change in diagnosis or substances that were used or abused since the COVID-19 Pandemic started vs prior?
- Have you seen an increase in positive test during COVID-19, if so what substances?
- During COVID-19 if your census dropped what are your thoughts since the thinking is, nurses are under more stress and possibly using more substances ie alcohol?
